

# ANDRÉ POYER

## SOFTWARE DEVELOPER

---

### EDUCATION

**2020-2024**

**UNIVERSITY POSITIVO**

Bachelor of Computer Science, Major in Technology

---

### EXPERIENCE

#### WEB DEVELOPER

**Meisters Solutions (Digi Group)**

**2021-2023**

- Played an integral role in the development of dynamic web applications, delivering tangible contributions to notable corporations including Ballesol, Lecta, and Wow Concept.
- Utilized an extensive background in web development and mastery over programming languages to navigate through a spectrum of projects, illustrating adeptness from compact web solutions to intricate e-commerce systems.
- Demonstrated versatility by tackling assignments of different magnitudes, translating client needs into tangible digital solutions, and consistently meeting project objectives.

#### FRONT END DEVELOPER

**ALE1 Solution**

**2018 - 2021**

- Designed, developed, and managed website interfaces using web technologies, contributing to the creation and enhancement of multiple company websites.
- Acquired a strong grasp of web development principles, refining skills in website design and management through hands-on experience and active participation.
- Optimized the company's process, reducing its month-end closing time by over 70%.
